b. Participation in Relevant Conferences

Table 3.2 provides the list of the most relevant Conferences or international meetings attended by UMI-IFAECI researchers. Notice that project meetings are not included. As it is discussed in section 6, many researchers of the unit have an important international recognition, which in this case is noticeable by the number of talks that they have been invited to give. Most of talks given at the listed conferences include also the publication of extended abstracts or full articles in conference proceedings. The conference paper details have not been included in favor of succinctness.
